

LEMON FRESH
AT HOWRAH

WE

The foundation of Lemon was laid in the year 2005 by five directors of the company to construct commercial, residential, and entertainment projects.

A quiet beginning laid the strong foundation of the working mechanism of the company with emphasis on quality over quantity.

Our headquarter became the meeting point for brainstorming sessions among the Board Members on potential projects, working agendas and company ethics.

With honesty, integrity and innovation being the mantra of our company, we strive to gain respect, trust and confidence of our customers, vendors, partners and team members.
